

A new, personalized approach to your care

Ontada Health is a new kind of patient portal experience. Designed to improve connectivity, registering with Ontada Health will allow you to more meaningfully engage with your care team, streamline communications, request appointments, and access records.

Use the patient portal to:

Invite caregivers to access your information and participate in your care.

Access via web from desktop, tablet and mobile devices.

Receive secure, personalized links to health information

Request appointments or appointment reschedules and receive notifications.

Ontada Health is brought to you by your provider, in partnership with Ontada.
